Aluminum Cable Railing System

Aluminum Cable Railing System

To determine stair post need: Looking from the bottom of the stairs up, the side in which the level rail connects to the post is the post hand required.

Note: Required strands of cable for 42" system: 11 strands for level and 7 strands for stair application. For 36" system: 9 strands for level and 7 strands for stair application. Check with the local building department as local building codes and by-laws may apply. Available in Textured Black (XB) only. 36" and 42" railing heights. Look up stair to determine left or right side face.
