Somerset Railing Kit System

Somerset Railing Kit System

1 Set newel posts (sold separately) to accommodate pre-drilled rail length. Center pre-drilled rail between newel posts and trim equal amounts from each end of top and bottom rails.

2 Slide rail hanger bracket over the end of the rail and attach with screws through end of rail. (Hint: Opening of bracket must always be up).

3 With a high-quality polyurethane construction adhesive, fill all the holes half way. Insert balusters with adapters into pre-drilled holes in rail. This will bond the wood to the balusters.

4 Apply pre-drilled top rail. Attach cap rail. Fasten railing section to posts with rail hanger brackets.

EVERYTHING YOU NEED BETWEEN THE POSTS!

- ✔ 2 factory pre-drilled rails
- ✔ 1 cap rail
- ✔ Powder-coated balusters (square/straight)
- ✔ Level kits include 30 baluster adapters
- ✔ Stair kits include 30 angle baluster adapters
- ✔ 2 pairs of rail hanger brackets with fasteners
