### Installation Instructions:

1. Welded panel section can be trimmed to fit a 48" or less opening. (Ex: Opening between posts is measured to 40" length)
2. Trim excess panel off the welded panel section of gate with miter saw. (Ex: 8" would be trimmed)
3. Slide Latch post side on. Secure Latch post side to welded panel with TEK screws. (provided)
4. Secure Hinge side to exterior post with lag screws. (provided)
5. Attach Catch (use TEK screws) to other exterior post or wall to secure the Latch to closed position.
