

FRAMELESS GLASS RAILING SYSTEM

- ✔ **Simplicity**
Integrated channels built into post allows glass to slide down into place.
- ✔ **Ease of Installation**
Set posts, slide glass into post channels and press caps into place.
- ✔ **Uninterrupted View**
No top or bottom rails means an unobstructed view from your deck.
- ✔ **Flexibility & Versatility**
Post design allows for a wider range of horizontal angles.
- ✔ **Safety Assured**
Tested in accordance with national building codes.

Installation Recommendations:

The posts and glass **must be** ordered separately for the frameless system.

Ensure all posts are plumb and level.

Maintain a maximum of 4 ft (from centre to centre of posts).

Measure distance between posts and add 1 3/8" to total measurements.

(Ex.: If inside post to inside post measurement equals 45"...45" + 1 3/8" = 46 3/8", you will need to order 46 3/8" glass). 10mm (3/8") glass is 40" high with horizontal polished edges for 42" system.

Note: Contact your local building department prior to installation.
