

The background of the entire image is a scenic view of a body of water, likely a lake, under a bright blue sky with scattered white clouds. In the foreground, there are lush green trees and foliage. A modern railing system is visible, consisting of two dark, vertical aluminum posts connected by a clear glass panel. The railing is installed on a wooden deck. The Vista Railing Systems logo is positioned in the upper left corner, featuring the word "vista" in a white, lowercase, sans-serif font, with a yellow chevron symbol above the letter "a". Below "vista" is the text "Railing Systems" in a smaller, white, sans-serif font.

WHO WE ARE

At **VISTA Railings**, we live everyday through our **core values** of trust, integrity, respect, fairness, safety and can do.

Our commitment to **continuous improvement** allows us to grow, evolve, and innovate, providing our partners with the best railing solutions in the industry. We design, engineer, test and manufacture **premium quality railings** in aluminum, glass, stainless steel, cable, and more, all through the lens of style and simplicity.

At VISTA Railings we believe our railings are an integral part of fulfilling the potential of your **outdoor living space**. Whether it is a backyard get together with friends, just the two of you sipping a fresh cup of coffee on an early morning, or a birthday party for your children, **VISTA Railings** create the perfect space. Through design forward thinking that embraces **Style & Simplicity**, our railings can be enjoyed on any home.

PASS-THRU CABLE CORNER

PRODUCT SHOWCASE

SAME POST

Same post used for pass-thru corner post as well as connected corners.

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, wide picket, framed glass, cable).

SIMPLE THREAD THRU

Threading needled (sold separately) make feeding cable thru corners and mid post a breeze.

NO CABLE CONNECTION

Eliminate the time and cost of connecting the cable to corner posts (limitations apply).

SINGLE POST

No need to double post at corners.

INSTALLATION

50ft maximum length combined for both sides of pass thru corner and maximum 90° angle.

VISTA ADVANTAGE

ALUMINUM STAIR RAILING

NO SECONDARY HANDRAIL REQUIRED

Create a better looking project because VISTA stair railings meets the graspable and continuous requirement.

LONG RUNS

The mid stair post allows you to create sections longer than 8' while still having a continuous, graspable stair system.

CLEAN CONNECTION

No bulky brackets needed to attach the stair rails to the stair posts.

EASY INSTALLATION

Simply slide the top and bottom rails into the pre-manufactured slots. No attachment of swiveling brackets needed.

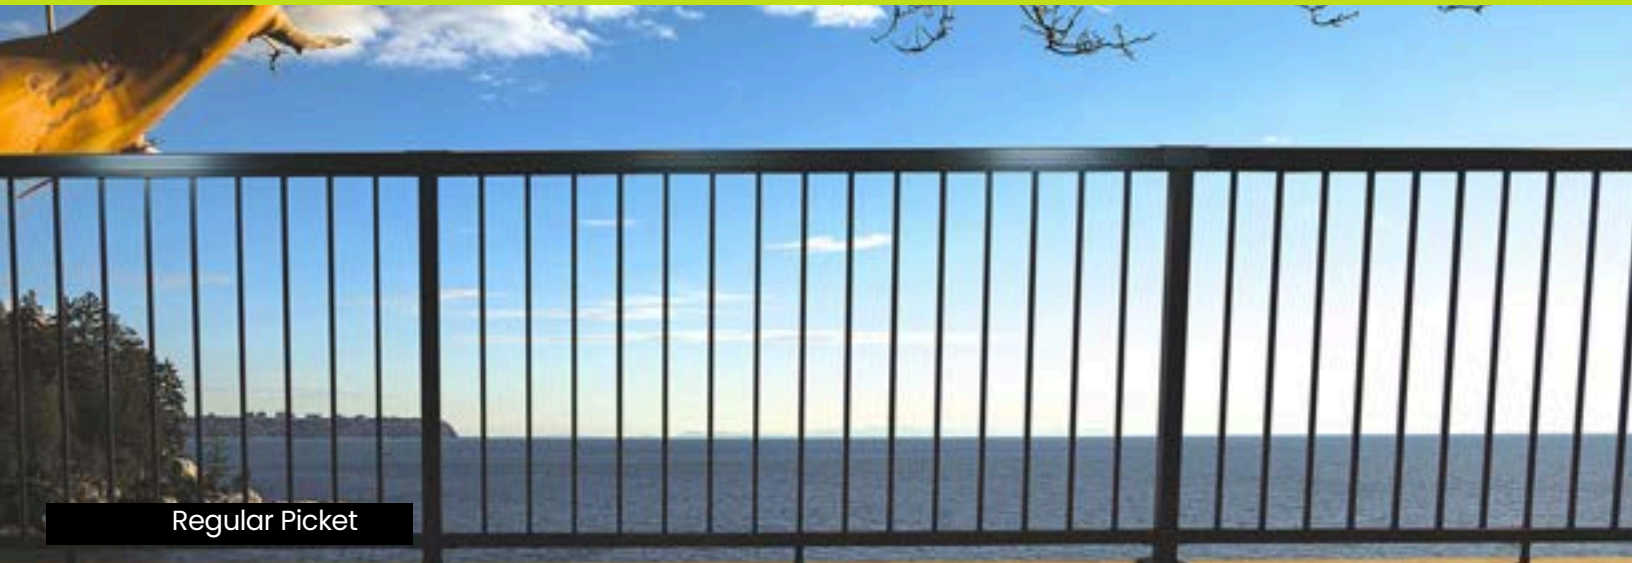

INSTALLATION FLEXIBILITY

Pre-slotted post design provides a wide range of stair angles.

A scenic view of a coastline. In the foreground, a large, gnarled tree with some green leaves and bare branches is silhouetted against a bright blue sky with scattered white clouds. Below the tree, a black aluminum picket railing with vertical bars runs across the frame. The railing is set on a wooden deck. In the background, a calm blue ocean stretches to the horizon under a clear sky.

ALUMINUM PICKET RAILING

Regular Picket

Wide Picket

VERTICAL PICKET RAILING

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, wide picket, horizontal picket, framed glass, cable).

EASE OF INSTALLATION

Factory attached brackets mean a quick and simple assembly.

STAIR CONNECTION IS SIMPLE AND CLEAN

Simply insert stair rail into pre-slotted post and fasten in place.

VISTA PLANNER PROJECT SOFTWARE

Simplifies estimating and installation process.

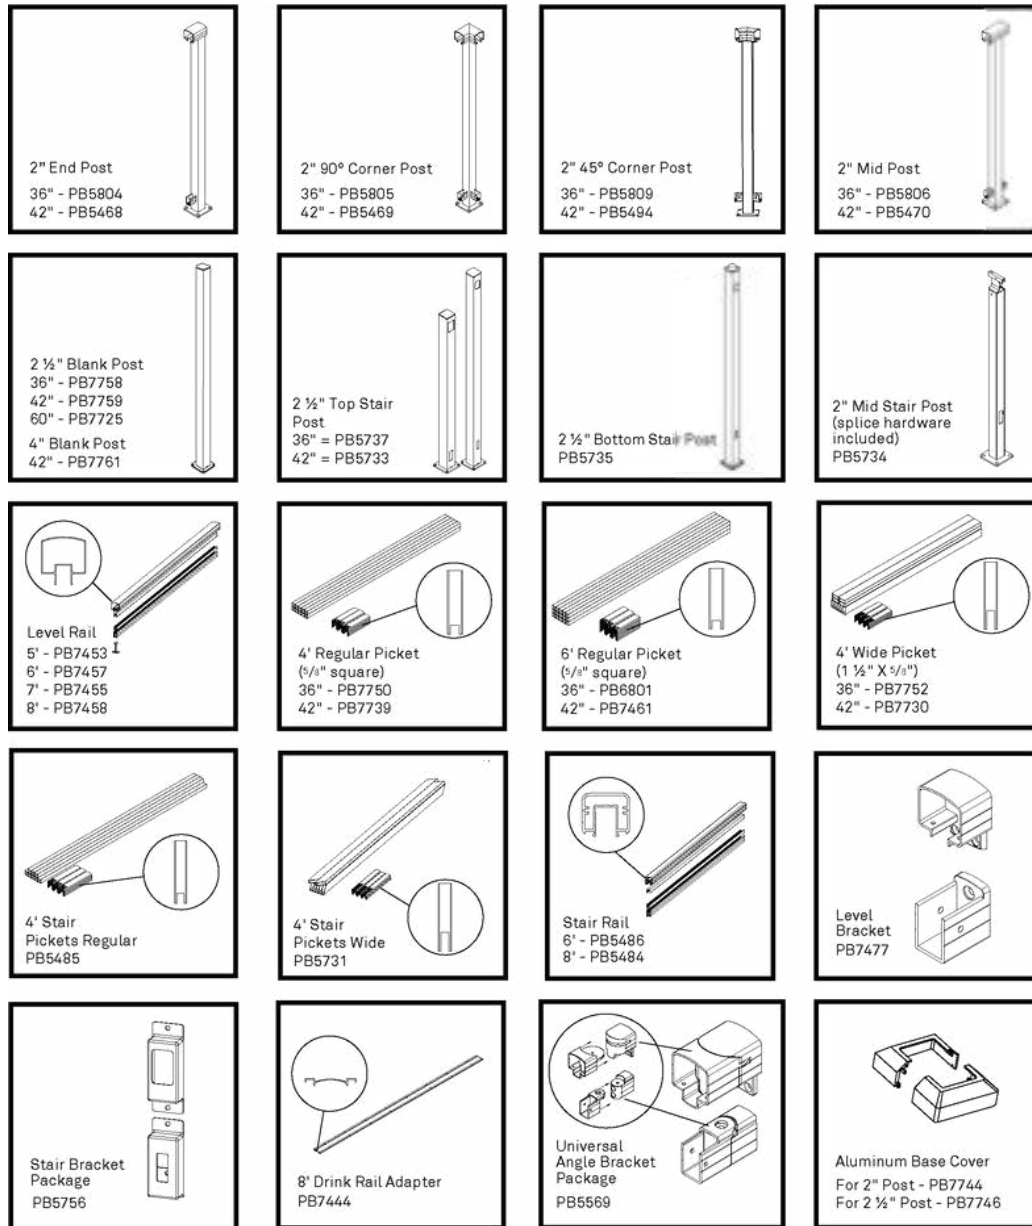

SAFETY ASSURED

Tested in accordance with national building codes.

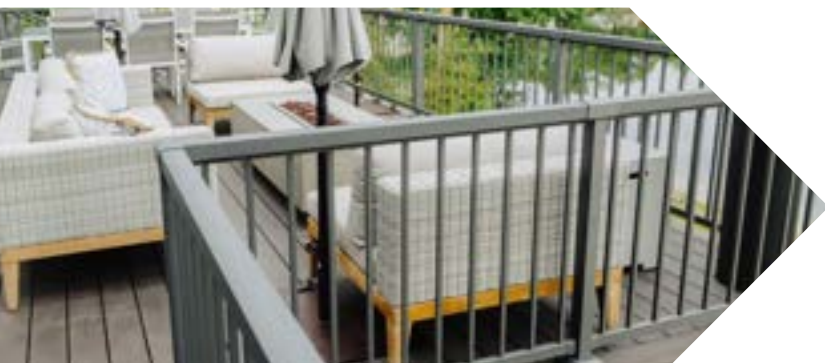

COMPONENT GUIDE

Everything You Need for Your Picket Railing System

NOTES:

- Check out **page 24** for accessories and more products to complete your project.
- Contact your local building department prior to installation.
- Available in Textured Black (XB), Textured Grey (TG), Textured Bronze (YB) or Gloss White (WT).

HORIZONTAL PICKET RAILING

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, wide picket, horizontal picket, framed glass, cable).

EASE OF INSTALLATION

Factory attached brackets mean a quick and simple assembly.

PLATE TO POST

Attach horizontal picket plate to your standard post, drop horizontal picket in place and finish with top cap.

CLEAN INSTALLATION

Pickets run all the way to posts without the need for an intermediate picket or gap.

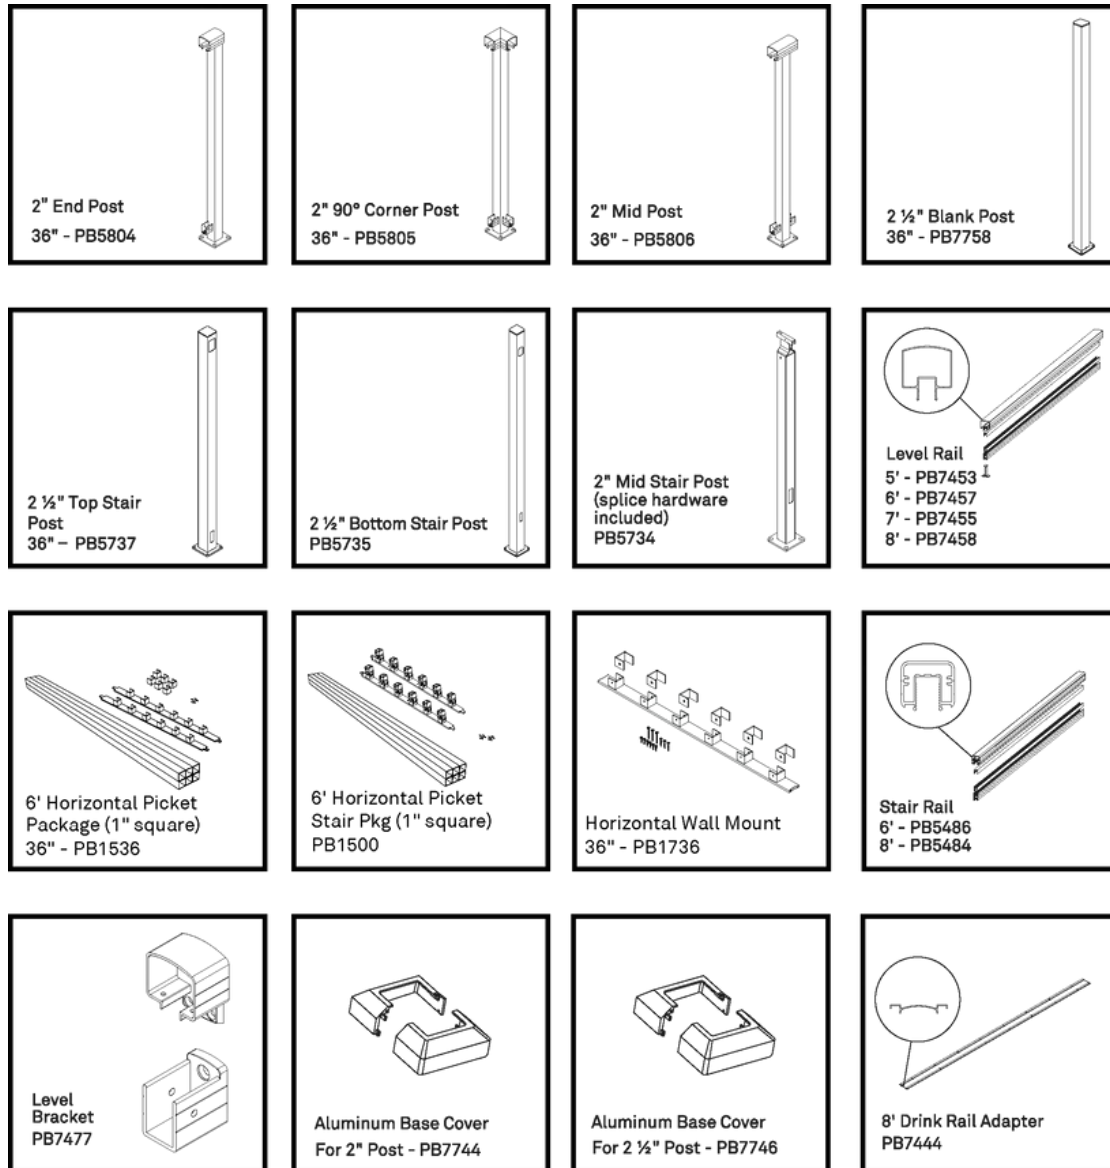

SAFETY ASSURED

Tested in accordance with national building codes.

COMPONENT GUIDE

Everything You Need for Your Horizontal Picket Railing System

VISTA KEYNOTES

- Check out **page 24** for accessories and more products to complete your project.
- Contact your local building department prior to installation.
- Available in Textured Black (XB), Textured Grey (TG), Textured Bronze (YB) or Gloss White (WT).

ALUMINUM FRAMED GLASS

ALUMINUM FRAMED GLASS

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, wide picket, horizontal picket, framed glass, cable).

EASE OF INSTALLATION

Factory attached brackets mean a quick and simple assembly.

COULD IT BE ANY EASIER

Insert Vista supplied glass panel into top rail and drop into bottom rail to complete installation.

VISTA PLANNER PROJECT SOFTWARE

Simplifies estimating and installation process.

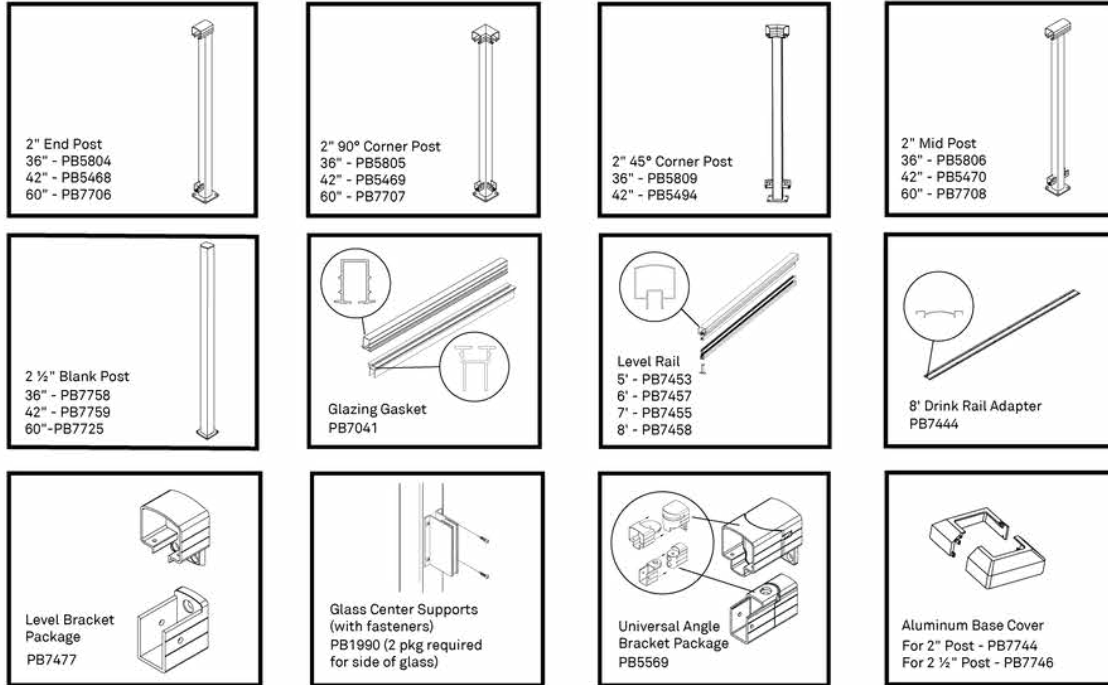

SAFETY ASSURED

Tested in accordance with national building codes.

FRAMELESS GLASS WITH POSTS

FRAMELESS GLASS WITH POSTS

SIMPLICITY

Integrated channels built into post allows glass to slide down into place.

EASE OF INSTALLATION

Set posts, slide glass into post channels and press caps into place.

UNINTERRUPTED VIEW

No top or bottom rails mean an unobstructed view from your deck.

FLEXIBILITY & VERSATILITY

Post design allows for a wider range of horizontal angles.

SAFETY ASSURED

Tested in accordance with national building codes.

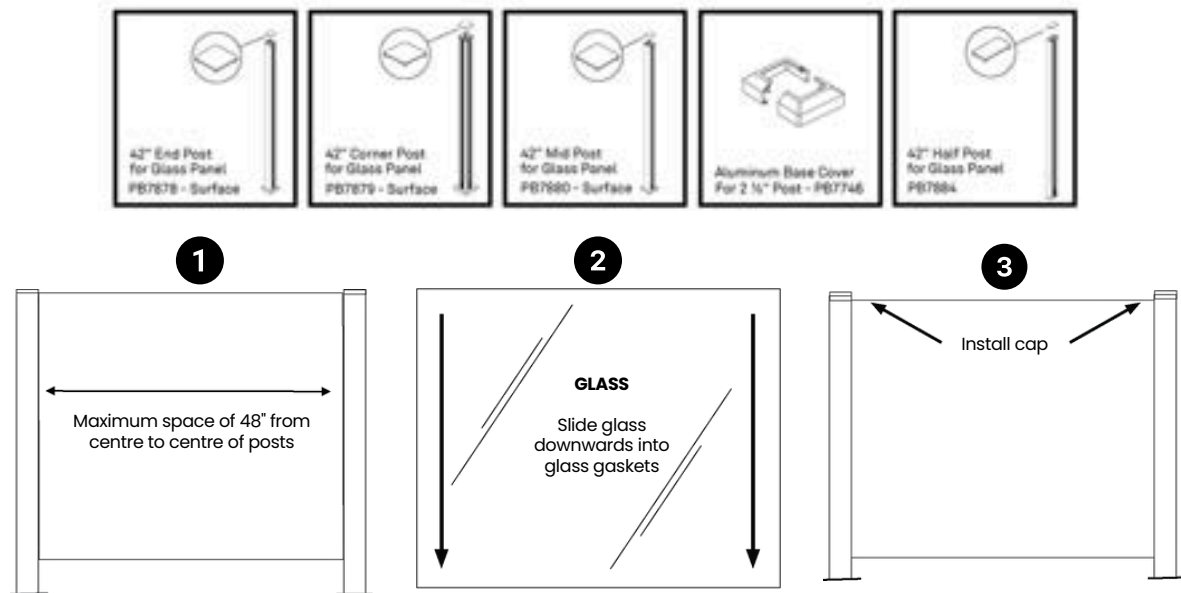

VISTA PLANNER PROJECT SOFTWARE

Simplifies estimating and installation process.

COMPONENT GUIDE

Everything You Need for Your Frameless Glass with Posts

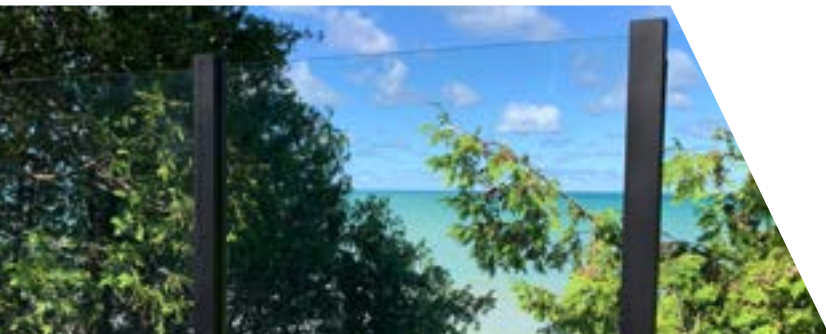

INSTALLATION RECOMMENDATIONS:

- The posts and glass must be ordered separately for the frameless system.
- Ensure all posts are plumb and level.
- Maintain a maximum of 4ft (from centre to centre of posts).
- Measure distance between posts and add 1 3/8" to measurement.
 - Ex: if inside post to inside post measurement equals 45"... $45" + 1 \frac{3}{8}"$, you will need to order 46 3/8"
- Submit above glass size to Vista for pricing and ordering.

VISTA KEYNOTES

- Check out **page 24** for accessories and more products to complete your project.
- Contact your local building department prior to installation.
- Available in Textured Black (XB), Textured Grey (TG), Textured Bronze (YB) or Gloss White (WT).

LED SPIGOT RAILING

LED SPIGOT RAILING

STAINLESS STEEL BRACKETS

2205 stainless Steel, corrosion resistant to acids in concrete, 2x the strength of 316 SS, available in two colors Matte Black & Satin SS.

LIGHT UP YOUR LIFE

Optional LED lights are 2x brighter than competitive products. With the ability to control the unlimited color options and brightness directly from your smart phone.

JUST DROP GLASS IN

One-piece construction glass gasket that stays securely in place during glass installation. Ensures a smooth, hassle-free glass installation.

KEEP IT ON THE LEVEL

7 separate screws for precision adjustment of glass panels.

VISTA KEYNOTES

- Check with your local building inspection department as local building codes and bylaws may apply prior to installation.
- Available in Textured Black (XB), Textured Grey (TG), Textured Bronze (YB) or Gloss White (WT).

CABLE RAILING

CABLE RAILING

PICTURE FRAME

The same rails and post design creates a consistent frame around your infill of choice (regular picket, wide picket, framed glass, cable).

EASE OF INSTALLATION

Factory-attached brackets on pre-drilled and/or pre-threaded posts mean a quick and simple assembly.

SWAGELESS CABLE CONNECTION

Simply cut cable to length and insert into the fittings (release key included with fitting package).

SINGLE POST

No need to double post at corners and stair transitions.

NO SECONDARY HANDRAIL REQUIRED

Creates a better looking project because VISTA stair railing meets the graspable and continuous requirement.

PASS-THRU CORNER

Same post used for pass-thru corner post as connect corners, simply use threading needles (sold separate) to pass cable-thru posts.

SAFETY ASSURED

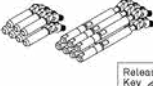

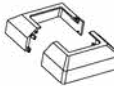

Tested in accordance with national building codes.

COMPONENT GUIDE
